

*****OBSOLETE*****

The Setra Pressure sensors listed below are now obsolete, and the best possible replacements are in the chart below. A complete review of your application is required to ensure physical fit, environmental & media compatibility, and application conditions (e.g., submersible and intrinsically safe are no longer available). The potential solutions below offer high accuracy, wide pressure range options, and some of the best price-to-performance in their class. Request application assistance, configure yours, and request a quote today!

526, 595, 550, 522, 512, 516, 546, 547, 540, 542, 567, 528, 595, 31CS, 32CS

Series	Pressure Range	Measurement	Outputs
3100	0-32,000 PSI (0-2,200 bar)	Gauge, Sealed	Current, Voltage, Ratiometric
3200	50-25,000 PSI (0-1,600 bar)	Gauge, Sealed	Current, Voltage, Ratiometric
209	Vacuum-10,000 PSIG (-1-700 bar)	Gauge, Sealed, Compound, Vacuum	Current, Voltage
256	0-10,000 PSI (0-700 bar)	Gauge, NEMA 4/IP65	Current, Voltage
AXD	0-10,000 PSI (0-700 bar)	Gauge, Sealed, Compound, Vacuum	Current, Voltage
