From installation to integration, the ideal choice for submetering professionals

	METER		BENEFIT
	Setra Power Meter 	Setra Power Patrol 	The Power Meter from Setra is a networked revenue grade power meter built on a versatile and powerful platform designed to meet the high demands for any submetering application.
Field Selectable CTs	✓	✗	Simplify ordering Setra Power Meter accepts Rogowski Coil's or Standard CT's (up to 2V) as a standard. Use existing CT's or purchase direct from Setra.
Conduit Flexibility (Rotatable Display)	✓	✗	Speed up installations and reduce cost Rotate conduit knockouts to minimize complex conduit runs and simplify installation.
Pulsed Inputs	✓	✗	Increase Available Data Tie in water, gas, and other pulse output meters to the BACnet & Modbus network via the Setra Power Meter.
Automatic Installation Record	✓	✗	Streamline Communication Generate an "As-Built" record to use in a job file or as information to share between electrician and integrator.
Integral Web Portal	✓	✗	Eliminate the need to download software to your PC The Setra Power Meter has an intuitive onboard web portal for configuration of the meter and can be used to visualize, transfer power, and energy data.
Display	STANDARD	OPTIONAL	Minimize SKU's Every Setra Power Meter comes standard with on-board display.
Power odometer	✓	✗	Easy data access Quick and simple look at the key Energy and Power data by last hour, last day, last week & last month for each load.
Multi-Load Measurement	✓	✗	Reduce costs Easily configure the Setra Power Meter for any combination of 3-Phase or single phase loads up to the number of CT inputs.

SAFE CONFIGURATION 1

 Configure anywhere, the meter can be setup through USB pre or post installation and even cloned to speed up the time on site, while ensuring the users safety through the innovative enclosure design.

MOUNTING METER 2

 The Setra Power Meter comes standard with an UL listed enclosure that eliminates the need for a secondary panel, saving time, money, & order processing.

LIGHTWEIGHT & FLEXIBLE CTs 3

 Patrol Flex Rogowski coils are thin and flexible to save time on challenging installation and do not require external power.

SINGLE METER CAPABILITY 4

 Our meters measure any load from 80 to 600 volts & with its dual voltage capability, one meter is essentially two.
